WASTE MANAGEMENT

Effective waste management is crucial for protecting human health, the environment, and the economy.

WELCOME.

Green Secure is a waste management and environmental services company based in Dubai. Our foundation is built upon **16 years of hands-on industry experience**, which has provided us with a profound understanding of the market, its regulations, and the unique challenges faced by businesses in the region. We are a team of seasoned professionals dedicated to delivering comprehensive, compliant, and sustainable waste management solutions that drive operational efficiency and support Dubai's vision for a greener future. Our extensive experience in the waste management sector allows us to offer more than just a service; we provide strategic partnership. We have a proven track record of developing and implementing efficient waste management programs that minimize environmental impact, and ensure full compliance with all regulations set by the Dubai Municipality (DM).

OUR VISION

"Reduce, Reuse, Recycle: a formula for a greener, cleaner future."

Our goal is to establish ourselves as the foremost authority in secure and sustainable waste management throughout the UAE by integrating innovation, integrity, and a commitment to environmental stewardship.

We aim to lead the industry by prioritizing responsible practices that not only enhance security but also promote sustainability, ensuring a cleaner and greener future for the region.

Waste management is essential for public health, environment, and economy, reducing pollution, conserving resources, and promoting a circular economy, safeguarding ecosystems, and mitigating climate change.

OUR MISSION

"Innovative waste management solutions for the UAE."

Our mission is to deliver tailored and effective waste management solutions that prioritize environmental protection, safeguard data integrity, and promote the principles of a circular economy through comprehensive recycling and electronic waste management practices. We aspire to establish ourselves as the foremost authority in secure and sustainable waste management throughout the UAE, achieved by integrating cutting-edge innovation, unwavering integrity, and a strong commitment to environmental stewardship. By focusing on these core values, we aim to not only meet the diverse needs of our clients but also contribute positively to the ecological landscape of the region.

OUR SERVICES

The UAE has implemented a comprehensive waste management strategy, including waste collection, recycling, and disposal, to maintain environmental sustainability and public health. Municipalities have established efficient systems to minimize landfill use and promote recycling. Advanced technologies and public awareness campaigns promote responsible waste disposal and recycling habits. As the UAE grows, the importance of effective waste management services will increase.

COMMERCIAL & INDUSTRIAL WASTE MANAGEMENT

Our waste management services cater to various environments, including offices, shopping malls, warehouses, and factories, ensuring legal compliance, collection, transportation, and disposal, emphasizing source segregation for recycling and environmental sustainability.

RECYCLABLE WASTE COLLECTION & PROCESSING

The process involves collecting materials like paper, plastic, glass, cardboard, and metal, sorting and transporting them to certified recycling facilities, promoting awareness through educational programs, and maintaining comprehensive reporting to support sustainability objectives.

SECURE DATA & DOCUMENT DISPOSAL

Our certified shredding services ensure secure destruction of digital storage devices, complying with GDPR and UAE data protection regulations. We issue a certificate of secure destruction upon completion, confirming appropriate handling of sensitive information.

E-WASTE MANAGEMENT (ELECTRONIC WASTE)

The responsible disposal of IT equipment, including laptops, phones, and servers, is crucial for environmental sustainability. It involves dismantling and recovering reusable components, recycling hazardous parts eco-friendlyly, and conducting data wiping to protect sensitive information and ensure irretrievable disposal.

CONSTRUCTION & DEMOLITION (C&D) WASTE DISPOSAL

Our services include collecting construction materials, providing efficient waste management through on-site bins and skips, and specializing in sorting and redirecting recyclable materials. We adhere to municipal regulations set by the Dubai Municipality.

SEWAGE COLLECTION

Septic tank cleaning, grease trap servicing, emergency response services, and compliant waste disposal are crucial for wastewater systems, commercial kitchens, and ensuring environmental compliance and public health.

MEDICAL & BIOHAZARD WASTE DISPOSAL

Healthcare facilities must use certified containers for waste collection and disposal, following guidelines from the Dubai Health Authority and the Ministry of Health, which mandate incineration or other specialized methods.

ORGANIC & FOOD WASTE MANAGEMENT

Efficient collection services are provided for hotels, restaurants, and supermarkets, focusing on sustainable waste management through composting or bio-digestion solutions. To ensure a hygienic environment, odor-proof bins are utilized, accompanied by regular pickup schedules to maintain cleanliness and efficiency in waste disposal.

BIN & CONTAINER SUPPLY / RENTAL

We offer a range of waste management solutions, including bins, skips, compactors, and roll-on/roll-off containers, tailored for various settings such as businesses, villas, labor camps, and construction sites. Our services include flexible rental options, allowing for both short-term and long-term agreements to meet your specific needs.

HAZARDOUS WASTE MANAGEMENT

The safe collection and disposal of hazardous materials like chemicals, batteries, paint, and solvents requires licensed vehicles, compliance with UAE regulations, and proper labeling, storage, and documentation to ensure safety and accountability.

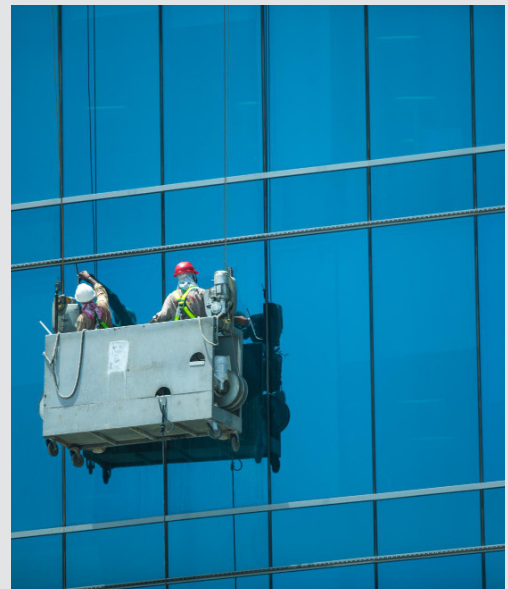

GREASE TRAP CLEANING

Grease traps are crucial for efficient plumbing systems in restaurants and commercial kitchens, requiring thorough cleaning and maintenance to prevent costly clogs and ensure compliance with disposal regulations.

BUILDING GLASS & TOWER GLASS CLEANING.

Our services include specialized window cleaning for high-rise buildings, bird deterrent solutions, and post-construction cleaning to ensure property integrity and spotless new constructions.

FACTORY & LABOUR CAMP CLEANING

Industrial cleaning services ensure a safe, hygienic work environment by thoroughly cleaning floors and equipment, maintaining health standards through sanitation and disinfection, handling hazardous materials safely, and promoting sustainability through effective waste management and recycling programs.

BIN AND CHUTE SERVICE

SUPPLY, INSTALLATION, TESTING & COMMISSIONING WORKS OF GARBAGE CHUTE & LINEN CHUTE SYSTEMS.

From supply and installation to testing and commissioning, our experts handle it all. We provide seamless service with a focus on quality and efficiency.

ANNUAL MAINTENANCE CONTRACT

To avoid violations, unpleasant odors, and fire hazards, it is highly recommended that garbage chutes are cleaned at least three to four times a year. Our professional and well-trained staff provide scientifically designed cleaning services that ensure safety, hygiene, and long-lasting efficiency. The process involves pre-soaking with degreasing agents, followed by a high-pressure hot or cold water wash mixed with disinfectants, which is sprayed inside the chute from top to bottom. This thorough method helps maintain the chute's sprinkler and brushing systems in clean working condition.

With our Annual Maintenance Contract (AMC), clients benefit from periodic visits and servicing of the entire chute system, keeping it in optimal condition throughout the year. In addition, we provide on-call visits for urgent requirements and also offer training sessions for users and property management teams to ensure proper handling and upkeep. Our goal is to deliver reliable, professional, and efficient chute cleaning services that promote a safe and hygienic environment for all residents and users.

REPAIR AND MAINTENANCE OF GARBAGE CHUTE & LINEN CHUTE SYSTEMS.

Our experienced team provides hassle-free repair and maintenance for chute doors, offsets (elbows), fire shutter doors, roof exhaust fans, brushing systems, compactors, disinfectant systems, control panels, and garbage trolleys. With skilled expertise and reliable service, we ensure smooth operation and long-lasting performance of your equipment.

CONSUMABLES AND SPARE PARTS.

We supply and maintain a wide range of essential chute system components including electro-magnetic strikes, hydraulic chute door springs, indicator lamps, exhaust fans, solenoid valves, sprinklers, booster pumps, disinfectant solutions, brushing devices, stainless steel chute doors, control panel parts, flushing spray heads, fusible links, garbage trolleys, and trolley wheels-ensuring reliable performance and smooth operations.

PEST CONTROL SERVICES

Bedbug control, Cock roach control, Ants control, Rodent control, Scorpion and all other general crawling pests

Flies, Mosquitoes, Honey bee, wasps and most other Flying insects

Annual contracts for building, apartments and villas.

EMERGENCY RESPONSE

Get Back to you within 24 hours.

We understand the distress pests
can cause as well as the financial
damage they can cause on business premises.

we will do our utmost to keep this
to a minimum

HIGH-QUALITY PLASTIC GRANULES FOR VERSATILE APPLICATIONS

(PETE, HDPE, PVC, LDPE, PP, PS, OTHER)

LDPE Granules

Low density polyethylene or LDPE is an extremely flexible yet very strong Product with excellent water Resistabce

HDPE Granules

Hdpe granules are small plastic Pellets or beads which is a thermoplastic material commonly Used in the manufacturing of various Products.

HDPE

HDPE granules are durable, chemical-resistant pellets used in pipes, containers, and packaging, offering versatile industrial applications.

PS Granules

Polyester granules are small, they Are commonly used as a raw material In the production of various polyester Products

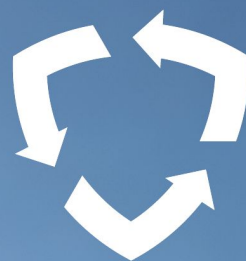

ABS Granules

ABS granules are small beads or Pellets made of acrylonitrile Butadiene styrene (ABS) thermoplastic polymer

OUR ACTIVITIES

- ✓ CONSTRUCTION AND DEMOLITION WASTE COLLECTION AND TRANSPORTATION SERVICES
- ✓ TRANSPORT OF GARBAGE TRUCKS
- ✓ HAZARDOUS WASTE COLLECTION & TRANSPORT
- ✓ STREETS CLEANING SERVICES
- ✓ GREASE TRAPS CLEANING & WASTES REMOVAL
- ✓ TRANSPORT OF SEWAGE WATER USING PUMPING TANKERS
- ✓ RECYCLING MATERIAL COLLECTION
- ✓ ALL TYPES OF BINS & SKIPS SUPPLY/ RENTAL/SALE/REPAIR/CLEANING
- ✓ HIGH-QUALITY PLASTIC GRANULES SALES
- ✓ CLEANING SERVICES
- ✓ AC SERVICE & REPAIRING, CHILLER REPAIRING, DUCT CLEANING
- ✓ BUILDING GLASS & TOWER GLASS CLEANING
- ✓ USED WOODEN PALETTE BUY, NEW WOODEN PALATTE SELLING
- ✓ SECURITY SERVICES
- ✓ PHOTOCOPY PRINTERS SALES AND RENTAL
